

Spend less time worrying about your bills

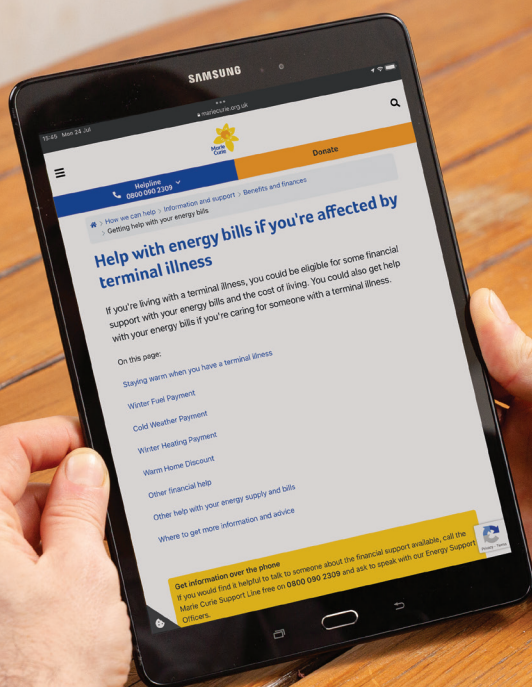

Make more time for your loved ones. If you're living with a terminal illness, or caring for someone who is, and you're concerned about energy costs, we're here to help. Get informed through the wide range of expert support and information we offer to help you manage your energy bills, so you can focus on spending quality time with the people you care about.

PARTNERED WITH

Wherever home may be, everyone deserves to feel safe, warm and comfortable – without worrying about their energy bills.

The cost of powering medical equipment and keeping warm at home could mean your fuel bills are thousands of pounds higher than those of an average household. That's why we've partnered with the UK Gas Distribution Networks to offer you expert support to tackle your energy bills.

What services do we offer?

Energy Support Officers

You can access support in over 200 languages through our free and confidential Marie Curie Support Line. Ask to speak to one of our dedicated Energy Support Officers who can give you information on supplier-specific support, grants, energy efficiency updates and more. You can also ask about the Priority Services Register to make sure you get extra help should there be any disruptions to your utilities, for example power cuts or gas or water supply interruptions.

Online resources

Our website covers everything you need to know about the financial help you could be entitled to, from grants and winter fuel payments to fuel vouchers. You can also order or download our booklet on help with energy bills and the cost of living.

The benefits calculator

Our handy online benefits calculator can help you find out what benefits you could be entitled to and how to claim them. It's free to use, anonymous, and doesn't collect any personal information.
